Extinguishing Media Dry chemical: carbon dioxide, foam and fog nozzle applied water spray.

Hazards from Combustion products: Incomplete burning can produce carbon monoxide and/or carbon dioxide and other toxic gases.

Precautions & Equipment for Fire Fighters: Remove containers from path of fire. Heating can cause expansion and rupture of containers. Keep containers cool with water spray. Firefighters should wear self-contained breathing apparatus as exposure to vapour or combustion products is likely. Carbon dioxide may be evolved if combustion is incomplete.

Hazchem Code: None allocated

6. Handling and Storage :

Safe Handling Practices: Not hazardous for the purposes of transport & storage.

Storage Store : below 30oC and away from strong oxidising agents or combustible material.

Other Information: Use water spray to cool fire-exposed surfaces and to protect personnel. When using water spray, boilover may occur if temperature of product exceeds 100oC. Water or foam may cause frothing. Burning liquid will float on water. Prevent run-off from fire control from entering waterways, sewers or drinking water.

7. Exposure Controls/Personal Protection :
